BEARSTED MEMORIAL HOSPITAL

(Jewish Maternity Hospital Incorporated).

Report of the Committee of Management for the Year 1947

In submitting their report for the year 1947, the Committee of Management do so with pride in the knowledge that the year proved, without doubt, to be that of the greatest achievement in the history of the hospital. On the other hand it has to be announced with deep regret that this report will probably be the last published by the present Committee, owing to the forthcoming transfer of the hospital to the State, on July 5th, 1948, under the provisions of the National Health Service Act, 1946.

NEW BUILDING.—After surmounting innumerable difficulties, in the securing of building licences and permits for the multitude of items of equipment, it is gratifying to be able to report that the first section of the new hospital premises at North London was opened for the reception of patients on August 8th, 1947. The first section of the new building has accommodation for thirty patients, and is now widely recognised as being one of the finest equipped units of its kind.

Until further building licences can be secured the new unit is being administered in conjunction with the temporary premises at Hampton Court, thus giving a total bed complement of 60 beds, the highest total in the history of the hospital, and a valuable contribution towards alleviating the present acute shortage of maternity hospital accommodation in the London area. The official opening of the new unit took place on December 17th, 1947, the ceremony being performed by the President of the Hospital (Viscountess Bearsted) in the presence of a large and distinguished gathering, with the Chairman of the newly-appointed North-East Metropolitan Regional Hospital Board (J. W. Bowen, Esq., C.B.E., J.P.), acting in the capacity of Chairman. Since that date there have been visits by representatives of many organisations interested in specialist maternity hospital units and the new building has been the object of much laudatory comment in medical and hospital world publications. The community may well take pride in their achievement in the opening of this new unit and the thanks of the Committee are here tendered to all those who contributed, either financially or by personal services, towards its accomplishment.

ASSOCIATION WITH THE PRINCE OF WALES'S GENERAL HOSPITAL.—Another most important development during the year was the arrangement entered into in March, 1947, for a close association between our hospital and the Prince of Wales's General Hospital, at Tottenham. The association was brought about after most amicable discussions between your Committee's representatives and representatives of the Prince of Wales's General Hospital and has resulted in X-Ray, Pathological and Dental services at that hospital being made readily available to our patients until such time as our new hospital is completed in its entirety and all these services, as a result, become available at our own hospital.

The obstetric, gynaecological and paediatric medical staffs of the two hospitals have also been fused, the members previously attached to the separate units now serving both hospitals. This has resulted in the augmentation and considerable strengthening of the medical staffing of these departments, with considerable attendant advantage to the patients. A Joint Committee of representatives of the two hospitals was also formed to discuss and formulate a concerted policy in connection with the provision of future obstetric and gynaecological hospital accommodation and services within the area covered by the two hospitals. This, too, should result in the provision of a much more efficient service for patients in the area and the prevention of any overlap in the functions of the hospitals and in the services to be provided.

Representatives of each of the hospitals were also nominated to serve on the Committee of the other, thus ensuring the closest possible liaison between the two hospitals.

Resulting from this association, too, the Bearsted Memorial Hospital is now included as one of the five hospitals co-operating in the North London Post-Graduate Medical Institute.

ADMINISTRATION.—Until transfer of the hospital to the National Health Service, on July 5th, 1948, its affairs will continue to be managed by the present Committee of Management. As a result of strenuous representations made to the Minister of Health, amendments were made in the original Bill before Parliament ensuring the safeguarding of religious practices in Sectarian Hospitals and certain other safeguards with regard to utilisation of funds given for specific purposes.

The Committee was appreciative of these amendments to the Bill, but continued to press, in addition, for the management of the hospital to remain in the hands of the nominees of the community and for its endowments to be retained for the specific use of this hospital. Though we were assured of some representation on the new Local Management Committee for the hospitals in the area, it has to be reported, with regret, that the Minister did not find it possible to accede to the other proposals submitted.

COMMITTEE OF MANAGEMENT.—The following members joined the Committee during the year: E. T. Neathercoat, Esq., C.B.E., D.L., J.P.; Col. H. C. Smith, C.B.E., D.L., J.P., and W. E. Tanner, Esq., M.S., F.R.C.S. (representing the Prince of Wales's General Hospital) and Councillor Dr. M. N. Oster (nominee of the Stoke Newington Borough Council). Mrs. R. D. Q. Henriques and Mrs. S. C. Lewsen resigned during the year and the Committee desire to convey to both these ladies their sincere thanks for the services rendered during their period of membership.

HOUSE COMMITTEE.—The monthly meetings of the House Committee continued throughout the year under the able Chairmanship of Mr. Arthur Franks. The hospital owes a great deal to Mr. Franks, who, in spite of his many other interests, has given unstintingly of his valuable time in furthering the work of the hospital. It is fitting here to accord our thanks to him and to his colleagues on the House Committee for their Services.

BUILDING SUB-COMMITTEE.—The Sub-Committee, under the Chairmanship of Mr. Henry Jacobs, continued to meet regularly and concerned itself mainly with the multitude of detail connected with the equipping of the new unit. Since the opening of the new hospital the Committee has continued with its work of seeing that all necessary equipment and furnishings have become available as and when required, and that outstanding items of contractors' and sub-contractors' work have been completed. To Mr. Jacobs and the members of his small but invaluable Committee we express our sincere thanks.

LADIES' ASSOCIATION.—The Association continued its activities with increased zeal throughout the year and, in addition to contributing the

sum of £500 towards the initial cost of ward linens, ensured an adequate supply of bed jackets and other garments for the patients in the new unit.

It is appropriate to place on record the Committee's appreciation of the services of this loyal band of workers, many of whom have carried on this work since the very inception of the Association.

MEDICAL STAFF.—Arising from the Association with the Prince of Wales's General Hospital the following members of the honorary medical staff of that hospital have joined the staff of the Bearsted Memorial Hospital :

Aubrey Goodwin, Esq., O.B.E.; M.D., B.S., F.R.C.S.	} <i>Obstetric</i> <i>Surgeons</i>
C. W. Kimbell, Esq., M.B., Ch.B., F.R.C.S., M.R.C.O.G.	
Dr. I. M. Anderson, <i>Pædiatrician</i>	

To these new members and to all the existing members of the Honorary Medical Staff of the hospital the Committee tender grateful thanks for continued loyal service to the hospital.

With the opening of the new hospital the Committee reverted to the pre-war arrangements for appointment of Resident Medical Officers. Appointments were therefore made to both the Stoke Newington and Hampton Court units.

The Committee desire to place on record their grateful appreciation of the services of Dr. Kathleen Frazer, who served in the capacity of Visiting Medical Officer, Hampton Court, throughout the war period, and until the appointment of a Resident Medical Officer at that unit.

NURSING STAFF.—The hospital was fortunate in being able to maintain the midwifery staff at full strength, at both units, and in attracting to the new unit a team of experienced midwives who will, without doubt, carry on the high standard of nursing skill of which the hospital has always been so proud. The Committee desire to place on record their appreciation of the efforts of the Matron, Miss Ford, in this connection.

IN-PATIENT DEPARTMENT.—The total number of patients admitted during the year was 860, of whom 655 were admitted to the Hampton Court unit and 205 to the new unit (in the latter case between August 8th and December 31st). We are again happy to record that there was no maternal death during the year. The still birth rate also remained at a very satisfactorily low figure. The medical and nursing staffs are to be congratulated on the most excellent results of their efforts. (For statistics see pages 12 and 13). A great boon has been the six private rooms provided in the new hospital, which are increasingly in demand by private patients of members of the hospital's Honorary Obstetric Surgeons.

OUT-PATIENT DEPARTMENT.—Ante-natal and post-natal clinics continue to be held regularly at both units. At the new unit the attendances show a continual increase and the number of sessions has consequently also required to be increased in order to cope with the large numbers. There are now either clinics or "booking" sessions on every week-day. (The statistics will be found on pages 12 and 13).

FINANCE.—(Detailed accounts will be found on pages 14 to 22).

INCOME.—Total income for the year available for general maintenance purposes amounted to £20,934, this total including free legacies amounting to £5,672. Although this income was the highest in the hospital's history, maintenance of the new building, in addition to the Hampton Court unit, coupled with the continued increases in costs, resulted in total income being insufficient to meet expenditure by £3,750.

In addition, to meet current needs until July 5th, 1948, your Committee has had to request the hospital's Trustees to advance a sum of no less than £10,000 from Building Fund and other monies vested in them. It will be realised from this that were it not for the National Health Service undertaking responsibility for general day-to-day needs after July 5th, 1948, the position would

indeed be precarious and that an appeal to the Community for a very large sum of money would have been inevitable.

It must be stressed, however, that for the hospital to continue to provide the many additional comforts and amenities it has always been our endeavour to ensure for our patients, continued support will need to be forthcoming from the Community even after the National Health Service commences to function. Your Committee take this opportunity of thanking all those who contributed to the hospital's funds during the year.

EXPENDITURE.—Total expenditure on general maintenance amounted to £24,684, of which £15,753 was in respect of the Hampton Court unit and £8,931 in respect of the new hospital premises. This figure, too, was the highest in the hospital's history, being an increase of no less than £11,102 on the figure for 1946.

It is necessary to stress that comparisons between the two units or, at the present time, with other similar hospitals would be misleading since, with the new hospital only one third complete, the overheads are entirely out of proportion with the work actually being carried on and with the number of patients which can be accommodated.

Every effort has been made, however, to keep costs at the absolute minimum consistent with the specialised treatment and up to date facilities provided for our patients.

CONCLUSION.—With the submission of this report there comes to an end the first chapter in the history of this hospital—at a time when, following on a 53-year record of continued progress, the hospital, in its new premises, was making its mark in new fields of progress. At the time of going to press representations had been made for recognition of the hospital, in conjunction with the Prince of Wales's General Hospital, by the College of Obstetricians and Gynæcologists as a teaching unit for doctors intending to specialise, whilst the five hospitals comprising the North East London Post-Graduate Medical Institute (of which this hospital is one) have recently been inspected by the Post-Graduate Medical Federation of the University of London, with a view to the conducting of post-graduate courses. The hospital is also enlarging the scope of its activities as a training school for midwives and it is proposed, in due course, to initiate post-graduate courses for midwives and to resume the District Midwifery Service discontinued just prior to the war. Our friends and supporters, therefore, will see that your Committee was continuing strenuously with its efforts to further enhance the work and reputation of the hospital to the ultimate benefit of our patients, who are, when all is said, our first and constant consideration. It is to be hoped that the Local Management Committees, which are now being set up in connection with the new National Health Service, will see fit to continue in the steps of the present Committee and proceed with the plans for the future of our hospital, as outlined.

To our Honorary Medical Staff we accord sincere thanks for their valued services and constant watchfulness over our patients' well-being. To the Matron and the Nursing Staff the Committee will forever be indebted for the excellent nursing care afforded our patients. The many expressions of gratitude by the patients themselves pay eloquent tribute to the standard of nursing maintained. To the secretary, Mr. Finlay, and his staff, responsible for the business management and smooth running of the hospital, the Committee wish to record their expression of thanks for loyal and conscientious services which successfully overcame all difficulties which beset them during most difficult times. To our professional advisers, Mr. Ernest Joseph, architect, and his assistant, Mr. Cashmore, we are also deeply indebted for practical help so readily afforded the Committee at all times.

Up to this point the Report has been submitted as the Report of the Committee of Management. Being signed, however, on their behalf, by their Chairman. I would like, finally, to convey my personal thanks to my

colleagues on the Committee, many of whom have been members for a considerable number of years and have given unsparingly to the hospital of their time, knowledge and invaluable experience. To each and every one of them I am deeply grateful.

And so into the future—at present an uncharted sea, but a future full of possibility and opportunity to improve on the past.

(Signed) DOROTHY BEARSTED,

President and Chairman of the Committee of Management.

July, 1948.

The members of the various Committees unite in expressing their admiration and appreciation of the work of their President and Chairman, Lady Bearsted.

Lady Bearsted has been an inspiring and stimulating leader, ever-mindful of the welfare of both patients and staff. The Committees' good wishes go with her for her work on the new Local Management Committee, where her high ideals will prevail and will enable the present high standard to be maintained in this hospital which bears her name.

Report for the Year 1947

The fortnightly Sewing Meetings have again been well attended and the new hospital at Stoke Newington is well supplied with the various garments made for it by the members of the Ladies' Association.

In September, 1947, the sum of £500 was transferred to the hospital towards the cost of purchase of ward linens.

Owing to the absence of Mrs. Haley, Mrs. F. Heim has very kindly carried out the duties of Treasurer, temporarily.

(Signed) DORA MAGNUS (*Chairman*).

I have audited the above Balance Sheet, dated 31st December, 1947, and having examined the books of the Jewish Maternity Hospital Incorporated, and the Accounts of the Trustees of the Deed dated 12th February, 1946, and obtained all the information and explanations I have required, I have to report that, in my opinion, such Consolidated Balance Sheet is properly drawn up so as to exhibit a true and correct view of the state of the affairs of the said Hospital and the said Trustees, according to the information and explanations given to me, and as shown by their books. I further report that, to the best of my knowledge and belief, the regulations of the Revised Uniform System, as modified in accordance with the circular of King Edward's Hospital Fund relating to the treatment of Free Legacies, dated December, 1940, have been followed.
